AMONG THE FARMERS.

"AFTER THE PLOW."

Night.
Into the gloomy and frosty hearts of men,
The long-rolled evening airways, a wanderer,
And the cool scenes of twilight bring a guest,
And the cool scenes of twilight bring a guest,
Death to the soul of man.

David Morton

Corr. Borer Wasps.

The European corn borer last year made its appearance in Maine, and this year advanced farther and farther into the interior of the state, Oxford County, they have invaded, perhaps, in Norway and Mechanic Falls.

Just how to control the pest is a difficult problem in Massachusetts they are trying French wasps.

With the release of 1,000,000 wasps termed habrobracon, in that state experts of the Bureau of Entomology hope they have set in motion an agency that will result in the destruction of the corn borer and the saving of millions of dollars to the farmer. The use of the experimental solution, however, will not be determined until observations have extended over a period of years.

Reported from France, in which country and in Italy the habrobracon has proved a relentless enemy of the corn borer, four colonies of the insects were brought to the United States laboratories in Arlington. Whether the wasps will become located in the larva, may be incorporated in some of the eggs, so when the eggs are laid the disease germs are present. What these eggs are intended for is not known.

Borers, we know, are a highly infectious disease and can exist only when a specific germ is present. Briefly, the disease acts in this way: Some of the wasps lay eggs in the tissue of the plant, but they carry the germs of the disease in their system and may transmit it at any time to others in the flock. When mature, these show no signs of disease, but when the wasps die, the mortality among them is great.

"Odalisque, you mean? Maybe my borer is dead?" quipped Fred Foster, as he spoke to his wife, Sarah, looking at her in wonder.

"I know what it means—perfectly," he said.

"Then please to tell me," Sarah said audaciously. "I think I know already, but am willing to be instructed."

"This is most shameful—shameful!" the borer interjected.

"Sarah, you are unheeding."

"The odalisque, the woman of the satana, is brought up to believe that her reason for being is to charm, to enthrall, and serve him, bear his children and keep faithful to him only so long as they both do live. Maybe she doesn't always live up to that straight deal."

"It is necessary to control the disease carriers from the flock and breed from those which are healthy."

This can be done by what is known as an agglutination test of blood serum from the borer used as a carrier.

So far no arrangements existed in Maine for making this test but at present the English States are conducting experiments to determine whether the borer is really a carrier of disease.

During the first two or three days of the chick's life the disease is so highly contagious that a few infected chicks in an incubator may spread it to many others.

There is no known satisfactory cure of the disease.

"To control the disease it is necessary to destroy the disease carriers from the flock and breed from those which are healthy."

This can be done by what is known as an agglutination test of blood serum from the borer used as a carrier.

Death Notices.

The Nation's Sorrow.

The death of President Warren G. Harding in San Francisco Thursday night gave a shock to the entire country, as he was thought to be safely resting in the quiet of his official abode. It is significant of our national stability that no sense of uneasiness as to the future is mingled with our sorrow. Our Comptroller of Massachusetts has confidence in him, and the country has confidence in him.

It is too early yet for the Harding administration to have its value in history determined, but it is believed that the judgment of history will be that it high in efficiency and value to the country, especially notable for the manner in which the president summons us to a new life as family as his assistants and advisers.

In one respect President Harding will rank high in history. The world of naval warfare, the mining camp stage of civilization, were ever so far apart. He packs a gun, and the one who is quicker on the draw is regarded as the safest. When, some time in the distant future, we look back on our origin, the childhood stage and acquirements of the modern president will be placed in history as the one who, by initiating the systematic development of naval armament, took the first concrete steps ever taken toward lessening the anomalies and danger of militaristic policy which threatened the peace and safety of the world.

Here and There.

On July 23, last, some 350 young men entered the United States Military Academy at West Point, and among them were over two thousand Negroes. One of the latter, Bassall H. Cleaves, has given an account of his first day at the institution, which may be of interest to Dixie boys. He writes: "The incident Harding will be placed in history as the one who, by initiating the systematic development of naval armament, took the first concrete steps ever taken toward lessening the anomalies and danger of militaristic policy which threatened the peace and safety of the world."

Here and There.

The appellee generally has a pretty good idea of what his wife wants, and good-by to the friends at home, she boards the train with his suit case, but when he arrives at his destination and walks up the steep hill to the military reservation, he finds his wife has left things on earth—a "plebe." The initiating officers, if one may call them, that go through him about as mercilessly as they do the men in the service, and make him take out he has no grandfather articles. So he is marched across the parade ground—marched in word, he means to march—into his cut, a double line to the door, "He's there!" That is where they house "plebes." Then he has to get his furniture from the cafeteria store, a mattress, two quilts, a brace, ribbons, old clothes, hats, bread, objects of art, furniture, and books that he can't afford to buy. He holds a destiny for all who will try his fortune at her eternal fires. With Sirs, "Iva in Blanca Fascinata," a queen of beauty, he has to buy a harp and drop a coin into her tambourine. Straight from the ghetto in Rome comes Della Flippo to preface his vacation in buckskin, he supplied the Congregation with his services, and he is to be a parson in West Somerville, Mass., soon.

The meeting of the Farm Bureau was held in the Congregational vestry on Tuesday, Bazaar and food preparation, were discussed. Some 75 years ago we had a man in the place that required a little more information regarding making dried apples.

Uncle John Moore had the trade to perfection. Of his family, only Mrs. Esther Ryerson of South Portland, and friend, Ernest Carpenter, of Norway, Ernest Turner of Buckfield, Mr. and Mrs. Arthur P. Pratt of Portland, and Donald and Arline of Portland, Ruth, Frances, Dossie and Margaret, of North Buckfield, Mr. and Mrs. Carroll Hutchinson at Rumford Sunday.

The second annual field day of the Alpine Club of Buckfield High School will be held on Aug. 10 at Rumford Park. Coffee and beans will be served. Bring cups, spoons and forks. Girls' and boys' sports will be put on.

Mason.

J. A. McKenzie has finished laying on Grover Hill for different people, and is working at home now.

Edwin D. Brooks, of Damariscotta, has finished laying.

Work on the school house is progressing finely. Frank Gibson of West Bethel has charge of the work. The town will have a new school building ready for the fall.

Coons, foxes and skunks are found in the Isthmus, and by lake and sea.

Mr. and Mrs. Brooks came from Damariscotta by auto. Their son Edwin D. and grandsons accompanied them, arriving at the Hubbard House Sunday morning.

Mr. and Mrs. N. E. Bossey, Mr. and Mrs. Alton Turner and baby, Ralph, and Mrs. Bessie spent Sunday with Mr. and Mrs. E. M. Bessie at Rumford.

Mr. and Mrs. Carroll Hutchinson visited on Saturday.

Mr. and Mrs. Raymond and Leander Dudley and two children, Lottie and Gertrude, and Mrs. Ned Roselli, Mr. and Mrs. Royal Cordwell, Mr. and Mrs. Roy Cordell and three sons, George, Wilson and James, of Norway, are visiting their mother, Mrs. Herbert Smith.

Strand Theatre

SOUTH PARIS
L. G. DUREPO, Res. Man.

The attendance at the Strand is increasing daily. A glance at the following list of pictures will tell why we expect a continuance of good business.

Program for Week of Aug. 6

Monday, August 6, Matinee and Evening
A Paramount Special Production
BEBE DANIELS and ANTONIO MORENO

"The Exciters"

Mrs. Daniels was never more delightful than as this girl whose whole life was a search for excitement. It's a funny story with a different twist; a melodrama and a comedy in one. Antonio Moreno adds great strength to the cast.

Educational Comedy—"Hazel From Hollywood," starring
Viola Daniels.
Prices, Matinee 15c and 25c. Evening 15c and 25c.

Tuesday, August 7

EDWARD (HOOT) GIBSON
IN

"DEAD GAME"

Step with Hoot Gibson to the tune of flying hoofs right through all the daredevil action and rugged life of the rolling plains. A Western play that is full of thrills, action and romance.

Comedy—"The Wise Cracker," International News.
Prices 15c and 25c.

Wednesday, August 8, Matinee and Evening

Pearlyn Stanlaws' Paramount Production

"Children of Jazz"

With a superior cast including
Nita Naldi, Jacqueline Logan and Conrad Nagel.

Everybody's talking these days about the difference between the young folks of today and yesterday, between the two generations. As jazz as its title, with a super excellent cast. Stanlaws is at his best, in a drama that you will want to see—and talk about for weeks.

Comedy—"Pest of the Storm Country," Topics of the Day.
Matinee, 15c and 25c. Evening, 15c and 25c.

Thursday, August 9, Matinee and Evening

WESLEY (Freckles) BARRY
IN

"Heroes of the Street"

There will be a special matinee on this picture because we want to give every boy and girl in South Paris an opportunity to see Wesley Barry's big success. An excellent supporting cast assists Barry in making this picture what young and old alike will thoroughly enjoy.

Comedy—"Young and Dumb," Pathé Review.
Matinee, 15c, 25c. Evening 15c, 25c.

Friday, August 10, Matinee and Evening

"DRIVEN"

Jay Salter's famous story of the pine-scented Kentucky woods has been pictrified and the wonderful, cooling scenes and big heart interest story will provide you with an evening of fine entertainment. Elmer Fair and Charles Mack head the cast.

Chapter 3 of "The Oregon Trail."
International News.

Matinee 15c, 25c. Evening 15c, 25c.

Saturday, August 11, Matinee and Evening

CHARLES (BUCK) JONES
in a rip roaring Western play

The Boss of Camp 4

Tom Mix had better look out for his laurels if this good looking exponent of Western out-door drama makes a success of future vehicles as much as he does this one. "Boss of Camp 4" has everything that goes to make up a fast moving Western play.

Comedy—"A Husband's Happy," Scenic—"The Noise."
Matinee 15c and 25c. Evening 15c and 25c.

COMING NEXT WEEK

"Brave," (everlastingly exciting).
"The Little Church Around the Corner," Harold Lloyd Special, "Dr. Jack," "Another's Man's Shoes," John Gilbert in "Truxton King," Agnes Ayres in "Racing Hearts."

COMING SOON.

"Brass," "The Glimpses of the Moon."
